Paths to Wellbeing

Putting walking at the heart of communities

Improving access to nature in Wales

Ramblers Cymru's Paths to Wellbeing project is a great example of how the Ramblers open the way for everyone to enjoy the simple pleasures of walking in nature. The project puts walking at the heart of 18 communities across Wales by giving them the tools and training to improve nature and access to walking in their local areas.

We have provided the selected communities the tools and training needed to identify, design and improve new and existing walking routes.

Together with 22 local authorities, Wildlife Trusts Wales and Coed Cadw, the Woodland Trust in Wales, we have also been enhancing the local environment for nature to thrive. With activities
